Full Stack Developer

Dhaka, Bangladesh

Career Objective:
Enthusiastic and focused full-stack developer seeking a role to apply my skills in Next.js, MongoDB, Prisma, and PostgreSQL. I am eager to contribute to innovative projects, enhance my technical and communication abilities, and collaborate effectively with teams to add value.

Technical Skills:

- **Language:** JavaScript, TypeScript
- **Frontend:** HTML, CSS, React, Next.js, Tailwind CSS
- **Backend:** Node.js, Express.js, NestJS
- **Database:** MongoDB, PostgreSQL, Prisma, Mongoose
- **Tools:** Git, Postman, VS Code, Nginx, Docker, CI/CD

Soft Skills: Teamwork, Problem-solving, Critical analysis, Communication, Time Management, Adaptability, Creativity

Experience:

- **Misun Academy** - Web Developer 12/12/2025 - Present
  Responsibilities:
  - Develop full-stack web applications according to project requirements.
  - Handle deployment of the applications.

Projects:

- **MarketSphere (Multi-Vendor Ecommerce Platform)** Live | Frontend Repo. | Backend Repo.
  Overview: A comprehensive platform for multiple vendors to sell products, with a priority-based product showcase.
  Features:
  - Products are displayed based on a priority system, ensuring top items are highlighted.
  - Supports multiple vendors, allowing them to list and manage their products.
  - Secure user authentication and Api protection.
  - Comprehensive admin panel for managing products, vendors, and platform settings.

  Technology: React.js, Tailwind CSS, Redux, shadcn/ui, Express.js, Prisma, PostgreSQL

- **TechNest (Social Media Blogging Platform)** Live | Frontend Repo. | Backend Repo.
  Overview: A platform for users to create and share blog posts, featuring a rich text editor.
  Features:
  - Users can create and format blog posts with an intuitive editor.
  - Secure login and registration system for users and Api protection.
  - Like and comment system.
  - User profile management.

  Technology: Next.js, Tailwind CSS, TanStack Query, NextUI, Express.js, MongoDB, Mongoose

- **RentoCar (Car Rental Reservation System)** Live | Frontend Repo. | Backend Repo.
  Overview: A car rental system allowing users to reserve cars and manage bookings.
  Features:
  - Users can easily search for and reserve available cars.
  - Booking status updates are reflected in real time.
  - User-friendly interface.
  - Admins can manage the car inventory and oversee reservations.

  Technology: React.js, Tailwind CSS, Redux, shadcn/ui, Express.js, MongoDB, Mongoose

Education:
Daffodil International University - Dhaka, Bangladesh
B. Sc. In **CSE** (2022 to 2025)

Language:

- Bangla (Native)
- English (Comfortable)
